AN EARLIER ATTACK

President Clifton and other elected officials have come out and condemned Castro and Cuba for shooting down two aircraft flown by Cuban revolutionaries that may or may not have violated Cuban airspace. Yet on June 8, 1967, When the Israeli defense forces attacked an American naval vessel --USS Liberty AGTR-5 --that was and always had been in international waters, nothing was said or don by the US government.

This attack resulted in the deaths of 34 American sailors and the wounding of 171 others. Yet even today the survivors of the attack cannot get their elected officials to investigate the attack. An attack that was deliberate. An attack that violated international law. An attack that violated provisions of the Geneva Convention, in other words war crimes. An attack where provisions of the Uniform Code of Military Justice were violated when American naval aircraft sent to the aid of the USS Liberty were called back not once but twice by someone at the White House.

Do American lives mean so little to our elected officials that they will use the dead bodies of 18-year old American sailors as stepping stones on their way to office?

Harold "Gene" Six, USS Liberty Survivor
